Search for Patients in Clinical Workstation   D06A

Introduction: Patient Search in Clinical Workstation (CWS) enables you to search for patients using various identifiers.

1. Click on the 🔴 **Patient Search** node in the Tree Pane.
   Note: The Patient Search icon is available in the Tree Pane at all times.

2. Enter the patient's NHI or a minimum of two pieces of information, (i.e. **Surname** and **First Name)**
   Note: The more information entered returns fewer patient records.

3. Click the **Submit** button.

Patient Search

NHI No. :	

Surname	: demonstration	(at least two characters are required)
	: ☐ Include Soundex Matches On Surname	
First Name(s) :	this	
	: ☐ Match any first name	
Sex	: Unknown ▾
